

St Barnabas

transforming lives • changing the world

One Year Bible Reading Plan

This scheme can be used either to read through the entire Bible in 1 year or over 2, 3 or 4 years.

One way of approaching it would be to read the New Testament reading and one Old Testament reading each morning, and then use the Psalm/Proverb as a devotional reading at night. Over two years you will not only read the entire Bible, but cover the New Testament twice.

What is most important however is that you allow enough time for God to speak through his word. Only then do we move from reading for information to reading for “formation”.

Henry Kendal
